BENNETTS ASSOCIATES

Architectural Practice

🔑 Tenant

Award winning architectural practice with offices across the UK which strives to create truly enduring architecture. Bennetts Associates is a founding member of the UKGBC, and the first architectural practice in the world to have approved science-based targets and commit to the UN Climate Neutral Now pledge.

1 **Commit**

Continue to operate all offices within the practice at net zero carbon.

2 **Disclose**

Disclose energy and emissions data through annual publication of GRI aligned sustainability report, which reports progress against all publicly announced targets, and includes a full annual Scope 1, 2 and 3 GHG inventory.

3 **Act**

Develop and implement a strategy to reduce energy emissions in the London and Edinburgh offices in line with approved science-based targets, using these offices as a test-bed for other refurbishment projects. Offset any remaining emissions via the UN Climate Neutral Now scheme.

4 **Verify**

Conduct annual verification of reported carbon emissions from 2019.

5 **Advocate**

Encourage all clients to adopt Design for Performance and embodied carbon targets within all briefs, and continue driving industry change through advocating for net zero regulation. Commit to analysing embodied carbon on all design projects from 2022.

992 m² total floor area

120 tCO₂e portfolio carbon emissions

70 employees
