

ADVANCING NET ZERO

Business | City | States & Regions

BERKELEY GROUP

Property developer

Tenant | Owner | Developer

Build approximately 10% of all London's new homes - over 3,800 homes in London and the south of England in 2018 and a total of almost 20,000 since 2013. Over 60 live construction sites and 30 future sites including new operations in Birmingham. Became carbon positive for own operations in 2018.

24 offices

10,110 tCO₂e portfolio carbon emissions

2,689 employees

6 countries of operation

1 Commit

Committed to building all new homes to operate at net zero carbon by 2030.

2 Disclose

Disclose Scope 1, 2 and 3 emissions across all operations via company annual report and performance reporting.

3 Act

Implement energy efficiency measures and renewable energy procurement. Aim to have an internal carbon fee to drive long-term change.

4 Verify

Annual carbon reporting is externally assured. Head office is BREEAM Excellent rated, all new commercial projects built to BREEAM Very Good or above, and 91% of homes completed in 2018 had an EPC rating of B or higher

5 Advocate

Futureproofing developments through a transition plan to be net zero carbon by 2030. Working to educate consumers through the provision of details on the sustainability features incorporated into homes and developments.
