Lendlease is an international property and infrastructure group with a development pipeline of over £20bn over the next 25 years. ‘Leadership in Sustainability’ is one of the organisation’s strategic priorities, with a focus on decarbonising the organisation, the industry and to delivering significant social value from business activities.

1. **Commit**
   Commit to only owning, occupying and developing assets that are net zero carbon in operation across the business by 2025.

2. **Disclose**
   Measure and disclose scope 1 and 2 emissions and energy consumption for all owned and occupied assets in line with the Greenhouse Gas Protocol. Publicly disclose scope 1 and 2 emissions data through annual reports.

3. **Act**
   Develop transition plans for owned and occupied assets to drive down energy demand through increased energy efficiency measures. Transition to procuring only electricity generated from certified renewable sources by 2025.

4. **Verify**
   Verify emissions data via an independent third party audit and certify new buildings using relevant market certification tools.

5. **Advocate**
   Advocate for industry wide market transformation towards net zero buildings. Achieve absolute net zero carbon across asset portfolio covering scopes 1, 2 and 3 by 2040. Collaborate with supply chain and customers to eliminate all scopes of emissions from the construction and operation of assets by 2040.

5 assets
210,969 m² total floor area
723.5 tCO₂e portfolio carbon emissions
1,402 employees

Lendlease is a member of UKGBC and GBC Italia.
